Inspirational spaces which power positive mindsets - enrobed in Petrarch

A centre dedicated to driving success. 'This state-of-the-art facility is the new home for the men's and women's soccer and lacrosse programs and includes dedicated training and equipment spaces for each, new lounges and meeting spaces, offices, and locker rooms.'

The client brief was challenging, to create a 'signature' facility which would inspire success. The Gary & Barbara Rodkin Academic Success Center (RASC) reinforces Rutgers University's goals to improve academic outcomes, personal growth, and student wellness. The facility consolidates educational support space for all student-athletes.

Vibrant, innovative, and nurturing in its design approach, it combines modernised learning spaces with an athletic training facility of the future.
